

Thank you for your interest in becoming a distributor for iBike®.

Over the few years, power measurement has become one of the most talked about topics in cycling. But you've told us that very few of your customers are training with power meters. That's because until now, power measurement has been too complicated, too inflexible, too heavy and too expensive for most cyclists. Now iBike offers you the opportunity to finally take power measurement to your bottom line.

With its low MSRP and innovative features, iBike has broken the power measurement market wide open—delivering increased sales at significant margins!

We are excited about the possibility of creating a profitable partnership. So, let's get the process started.

Please review the **Distributor Program** and complete the **Distributor Application** attaching the requested information to the application form, submit it to us by e-mail, or snail mail and we will process it as quickly as possible. The time frame of application processing is typically seven working days after receipt of all necessary information.

Pending approval of your application, we will contact you with your personal on-line ordering code and will place you on our direct mailing list for product information, sales materials, order forms, and other applicable information.

Again, thank you for your interest in carrying our products, and we will look forward to hearing from you soon.
